

<http://backontrack.org>

**RAIL Back On Track** is web based community group that advocates for sustainable transport solutions mainly rail and advocates strongly for rail commuters, and at times other public transport commuters eg. bus and ferry.

We are also concerned with the interface of other modes of public transport with rail.

There are no qualifications for membership other than an interest in rail transport solutions and/or public transport and a desire to see improved rail transport outcomes for the community, and be in agreement with our Terms of Service (see <http://railbotforum.org/mbs/index.php?topic=3.0> )

To participate in forum discussions it is necessary to register.

Our privacy policy may be found here -->

<http://railbotforum.org/mbs/index.php?topic=2.0>

We are all volunteers, and administration has no formal transport qualifications or commercial connections with rail or transport. Administration has no connections or affiliations with any political party. We treat all political parties and independents without favour, and with regard only to the merits of their rail and public transport policies.

We welcome feedback and comments.

We have a feedback form here --> <http://backontrack.org/contact/>
